### REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

Claims 1-30 and 34 are allowed, as the prior art of record does not teach or suggest a radio frequency pediatric coil for magnetic resonance/imaging analysis, wherein the generally annular opening has a general radius R about which the plurality of elongated segments are positioned, and includes an anterior extension extending radially beyond the general radius R, in combination with the remaining limitations of the claims.

Claims 31-33 are allowed, as the prior art of record does not teach or suggest a head coil, wherein the plurality of legs are spaced apart azimuthally by 45 degrees, in combination with the remaining limitations of the claims.

Claim 35 is allowed, as the prior art of record does not teach or suggest a radio frequency pediatric coil for magnetic resonance/imaging analysis, wherein a first elongated segment and a second elongated segment of the plurality of elongated segments are spaced apart azimuthally at an angle greater than an azimuthal spacing of the remainder of the plurality of elongated segments to facilitate access into the coil volume, in combination with the remaining limitations of the claim.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
